

# INTRODUCING...

# HP<sup>2</sup> SPRING PACKS

**Now available as an optional upgrade, HP<sup>2</sup> Spring Packs are designed for faster, easier punch adjustments.**

Our new HP<sup>2</sup> Spring Packs deliver best in class features for small station thick turret assemblies.

#### Features and benefits:

- Fast and accurate tool length adjustments are possible in 0.13mm increments with no tools or buttons; a simple twist of the punch head is all that is required.
- Tools can be adjusted without the removal of the guide.
- Tools can be adjusted in the machine turret.
- 100% compatible with current Wilson HP and Series 90 guides and punches\*.

HP<sup>2</sup> Spring Packs can be purchased to upgrade your existing thick turret punch assemblies (please see table below), or as an optional extra when ordering new A or B station punch assemblies (prices available from the Wilson Tool Sales Desk).

Description	Cat. No	Price £
A Station HP2 Spring Pack	13735	
B Station HP2 Spring Pack	13729	

#### \*Please note:

HP<sup>2</sup> spring packs are not compatible with Amada PDC systems.
